

**Aphasia Research Center**

# DO YOU HAVE A DIAGNOSIS OF APHASIA?

**You are invited to participate in a paid research study investigating how the brain produces speech and how this can be disrupted by brain injury.**

**CONTACT US!**

## **ELIGIBILITY**

- Age: 18+ years old
- Diagnosis of aphasia, with particular difficulty with grammar

**Interested?**

**Contact:**

**aphasia@umd.edu**  
**301-405-2477**

Participation is divided into 3-4 sessions, over approximately 4 weeks.

Participation is partially virtual, but eligible participants are encouraged to participate in an MEG portion of the study, which will take place at the Maryland Neuroimaging Center (University of Maryland).

**Payment is \$20  
per hour**

This research is being conducted by Dr. Yasmeen Faroqi-Shah, Dr. Bob Slevc, and Dr. Christian Brodbeck at the University of Maryland ([www.aphasia.umd.edu](http://www.aphasia.umd.edu)) and has been approved by the Institutional Review Board

# IS ENGLISH THE PRIMARY LANGUAGE YOU GREW UP WITH?

You are invited to participate in a paid research study investigating how the brain produces speech and how this can be disrupted by brain injury.

**CONTACT US!**
