FOR: WAITRESS/WAITRESS/BARISTA 

I have APHASIA.

APHASIA affects my ability to *speak, understand, read and write*.

Aphasia DOES NOT affect my INTELLIGENCE.

BECAUSE OF MY APHASIA:

- I may have to POINT to my selection or SHOW YOU my order on my phone.
- If you offer choices, I may have trouble hanging onto all the choices in my head to make the selection I want.
- I may have trouble saying the SIZE drink I want (SMALL, MEDIUM, or LARGE).
- I may have trouble saying the TYPE of drink or food I want (HOT/COLD, BEEF/CHICKEN).

HOW YOU CAN HELP ME COMMUNICATE:

- If you offer choices, please speak at a SLOWER RATE, pausing in between choices, or consider WRITING them down for me.
 - For example, if asking for my drink SIZE please write down SMALL, MEDIUM, LARGE and I can point to which one I want.
- Please consider adding PICTURES/IMAGES to your menus, because reading can be challenging.
- Give me time to respond.
- Be patient.
