

Integrative Reconnective Aphasia Therapy Recommendations

After Aphasia

By Brooke Lang, M.A., CCC-SLP

"After Aphasia" addresses the basics of Aphasia and how it affects everyone differently, discusses the role of motivation in recovery, provides examples of exercises supported by principles of neuroplasticity, and much more! There is also an AUDIO VERSION and a resource packet available for download!

The Brain That Changes Itself

By Norman Doidge, M. D.

Dr. Doidge explores the profound implications of the changing brain using personal stories from the heart of the neuroplasticity revolution, permanently altering the way we look at human possibility and human nature.

The Brain's Way of Healing

By Norman Doidge, M. D.

Dr. Doidge uses astonishing and moving human stories and reports from the frontiers of an exciting field in brain science, putting it all together to help us recognize how the mind, brain, and body, as well as the energies around us, are all essential elements that combine in health and healing, offering hope for healing and transformation.

Relentless

By Ted Baxter

Ted Baxter, a successful businessman and stroke survivor, tells his story of his incredible determination and recovery.

Alphi, The Dog with Special Aphasia Powers

By Gail Weissman, MS MA CCC-SLP

The book is designed to educate family members of stroke survivors on how to communicate best with loved ones who have aphasia.
